## Making the Leap

Is being a professor the right path for me?

Will I still have a life?

How do I make the most of graduate school?

**Why would I want to be a professor?**

How do I know if a position is right for me?

What makes a competitive applicant?

## Finding the Right Fit

**If I decide to be a professor, what then?**

Sullivan, A. L., Harris, B., Newton, J., Ogg, J., & Shriberg, D. (2012, August). *Preparing for faculty careers in school psychology: Perspectives of early career scholars*. Symposium at the annual convention of the American Psychological Association, Orlando, FL.

## Someone actually hired me, so now what?

How do I feel like a professor?

How do I become a good teacher and mentor?

Will others take me seriously?

How do I take the lead in research?
